

Flip-Top

“The Flip-Top range offers the ultimate in tabling for a quality meeting & conference environment.”

With the choice of top shapes Flip-Top provides the versatility to create a variety of layouts. A CAD service is available to assist with the selection & specification of tables.

The underframes are polished stainless steel as standard, and the flip action of the top allows the tables to be nested to minimise storage requirements. Modesty panels and linking plates are available as optional extras.
